ABOUT FIRM

Laying foundation in 1996, establishing its roots eighteen years ago, Sattyam Engineers has now emerged as one of the leading manufacturers and suppliers of Sugar Machinery & Equipment. The company's dedication to serve the growing demands of sugar machinery & material handling systems, has led it to devise the technologically developed Pressure Vessels, Carriers, Material Handling System as well as Storage Tank & Pipe lines. We have a well equipped shop as well as qualified staff & skilled manpower adhering to spirit of innovating developed product.

Our team of qualified personnel is always ready to meet challenges of any nature. It is our endeavor to supply quality material at competitive rates and timely delivery is our motto. Being technologically advanced and innovative is a virtue. So is being customer-centric, as proved by Sattyam Engineers.

Sattyam Engineers is well known for its excellence in Designers, Manufacturers & Suppliers for Sugar Machinery. The company has achieved immense trust of its patrons in Sugar Factories. In a short span of time Sattyam Engineers has attained expansion of 7 Acres of land on the Miraj Pandharpur highway. This expansion was not only in terms of land but all covered facets such as expansion of the Heavy Fabrication & Machine shop with all Equipped Machines along with experienced staff who shall help uphold the quality of manufacturing.

Our Technical Directors have experience of more than 20 years in the field of Design, Manufacturing & Supply of Various Equipments & Material Handling Systems for Sugar Industries, like Bagasse, Ash & Sugar Bag Handling System, Pressure Vessels, Carriers, Cranes etc.

Registered with Commissioner of Sugar, Pune, the company not only caters to customers in Maharashtra but also in states such as Karnataka, Gujarat etc. It has direct and indirect clients throughout India.

Having attained growth in the last 20 years, the company now looks forward to enhancing its growth through its commitment to quality and reliability

Mr. B. S. PATIL
DIRECTOR

SCOPE OF WORK

- Sugar Industry Equipment: Design Manufacture, Supply, Erect and Commissioning
- Distillery Equipment: Manufacture, Supply, Erect and Commissioning
- We undertake the Boiling House on Turn Key basis.
- We also handle the expansion of Sugar Factories..
- We undertake the Material Handling systems such as Bagasse, Ash, Sugar, etc.
- Foundry Works will be carried out.

SPECIAL FEATURES

■ STEAM SAVING SCHEMES

We possess experts in Designing the Steam Saving Systems. We also undertake the Projects of Steam Saving Schemes on turnkey basis. We study the plant, design the above system according to the existing available equipment, Boiler and turbine conditions. We design the steam consumption to the extent of 35% on cane and we supply the machinery accordingly and carry out modifications wherever necessary to achieve the steam saving. And we design the scheme in an economical way. Our motto is satisfaction of our customers and the sugar factory crushing operations in an efficient way.

■ CUSTOMER SATISFACTION

We use to visit the factories where our equipment is provided in order to evaluate the performance of the equipment supplied by us. This is adopted, since our Motto is satisfaction of our clients.

■ BAGASSE DRYER

Every one is aware that the reduction in moisture in bagasse will improve the boiler efficiency and increase the rate of steam production per ton of bagasse. Due to this, bagasse saving thereby more power generation for grid would be available. This will enhance the financial positions of the sugar industries.

We will be launching BAGASSE DRYER in 2016. Our technical personnel are already working on this.

QUALITY MAINTENANCE

- MS Welding
- SS Welding
- By using good Quality of welding rods
- Machining
- Own foundry works
- Sufficient Man Power
- Bought out items procuring from Prominent manufacturers
- Proper Planning
- Possessing Qualified and Experienced Technical Staff
- Works monitoring from technical consultants possessing the experience in the relevant fields
- Day-to-day quality checking
- Quality checking by 3rd party agencies

WE DESIGN, MANUFACTURE, SUPPLY, ERECT AND COMMISSION

- ❖ Cane Carriers
- ❖ Swing Type Cane Levellers
- ❖ Bagasse Carriers
- ❖ Feeder Tables
- ❖ Rake Carriers
- ❖ Donally Chutes
- ❖ TRPF
- ❖ Cane Dehooking Systems
- ❖ Bagasse Elevators
- ❖ Bagasse Handling systems
- ❖ Ash Handling systems
- ❖ Return Bagasse Carriers
- ❖ Bagacillo Blowers
- ❖ Juice, Water and Molasses Weighing Scales
- ❖ Dead End Juice Heaters
- ❖ Dynamic Juice Heaters
- ❖ Vapour Line Juice Heaters
- ❖ Direct Contact Heaters
- ❖ Juice Sulphitor
- ❖ Lime Slaker
- ❖ Milk of Lime Tanks
- ❖ Lime Grit Removal System
- ❖ Filter Cake Conveyors
- ❖ Dorr 444 Clarifier
- ❖ Semi Kestner
- ❖ Robert Type Evaporator Bodies
- ❖ Falling Film Evaporators
- ❖ Syrup Sulphitors
- ❖ Pan Supply Tanks
- ❖ Batch Vacuum pans
- ❖ Continuous Vacuum Pans
- ❖ Twin Type and Mono Type Vertical Crystallisers
- ❖ Air Cooled Crystallisers
- ❖ Vaccum Crystallisers
- ❖ Sugar Melters
- ❖ Final molasses Storage Tanks
- ❖ Sugar Bags Handling system such as Conveyors, Stackers, Loaders,etc
- ❖ Sugar Silos
- ❖ Sugar Elevators
- ❖ Sugar Hoppers
- ❖ Pug Mills
- ❖ Magma Mixers
- ❖ Sugar Dust Collection system
- ❖ Hot Air Blowers
- ❖ Cold Air Blowers
- ❖ Continuous Type Sulphur Burners
- ❖ Molasses Conditioners
- ❖ Mechanical Circulators
- ❖ Transient Heaters
- ❖ Bagacillo Cyclones
- ❖ Bagasse Dryers
- ❖ Mist Cooling System for Spray Pond
- ❖ Right Angle Valves
- ❖ On Line Valves
- ❖ S.S. Tanks

■ DISTILLERY EQUIPMENTS

- ❖ Liquor Storage Tanks
- ❖ Molasses Storage Tanks
- ❖ Digestors
- ❖ Evaporators
- ❖ Agitator Tanks

FEW OF OUR PRODUCTS MANUFACTURED BY US

JUICE HEATERS

BOILING HOUSE MODIFICATION

BATCH VACUUM PAN

AIR COOLED CRYSTALLISERS

JUICE SULPHITOR

SEMI KESTNER

ROBERT EVAPORATOR BODIES

BAGASSE HANDLING SYSTEM

ASH HANDLING SYSTEM

VACUUM CRYSTALLISERS

MONO & TWIN VERTICAL CRYSTALLISER

LIME SLAKER

DIRECT CONTACT HEATERS

MOLASSES STORAGE TANKS

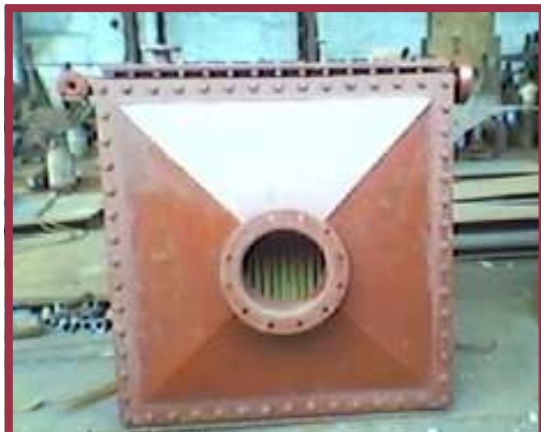

CONDENSER MODIFICATION

CANE UNLOADER

TRANSIENT HEATERS

MIST COOLING SYSTEM

PIPING PROJECT WORKS
